Meeting
Monitoring

Intranet
Mailing

This Municipality has introduced a File, Letter tracking and meeting monitoring system “e-PUROSEVA” w.e.f 1st April 2015. The system was introduced for smooth and effective tracking of each and every application received by this office. It also records the disposal and status of each application received department wise.

The system categorically segregates each application according to their subject matter.

The meeting monitoring system of “e-Puroseva” categorically updates the meeting conducted by this office in the system and digitally keeps record of the proceedings of the meeting. The system encompasses timely updating of various Office Orders, Circulars and Notices. The idea of e-Puroseva is conceptualized with the vision reducing paper waste and simultaneously saving environment.
